Who am I?
...what about my gender identity?

I'm a nonbinary trans man, artist, and writer

How do I party?

I don't really party now... but I did when I was younger. At first I didn't drink at all and ironically that's when I was most into partying. Everyone else was drunk! I did smoke weed. I also enjoy mushroomS and LSD. But probably sex is the best drug.

Where do I party?

I used to mostly throw parties at home, wherever I lived, especially if it was with several roommates.

What products are taken there?

Alcohol, marijuana, pills

What's it like for me?

I just like a good time where there are lots of people and they're relaxed, maybe a low key orgy starts up, that's the best kind of party. Positive and happy, and sexy.

What's it like for other people?

I think sometimes people get too drunk and get into a slump where they don't do much. They lose their energy. I think I had the most fun before I started drinking because I always had energy.

Flirting and sex: what's it like ?

To me a party isn't fun unless that's a possibility. The more prospects the better. People are lovely when they're intoxicated, they are free to meet their own human needs better. We shouldn't have to be inhibited about snuggling for example. So when people get drunk they want to be close to other people because they always want that, but they can't break the barrier.

How do you ensure that things go well?

I think it's just having nice people and a nice vibe. Start with nice ingredients, make a nice recipe. No jerks.

Imagine what could make things go even better? ?

I'd like to go to a lot of orgies or bdsm parties. I don't know what That would be like. I think there should be themed sex parties like "deep sea" or "outer space". With costumes.
